HENRY HERBERT SMYTHIE.

The names of a few persons whose bodies are buried here, and whose graves are not marked, have been printed with the others. The names of a few more are known and it is proposed to add to this list as many as may be had. It is earnestly urged upon those having friends buried in this ground whose names do not appear in the printed list, to send such names with date of death and age, if known, to HENRY HERBERT SMYTHE, Falmouth, Mass., to be inserted in this proposed supplementary list.

These inscriptions have been separated into alphabetical form.

Their Souls united, soar above the
Sky,
Where Grief & pain & Sorrows are
unknown
Where Songs of Joy surround Im-
manul's Throne
There with congenal Souls, their
Voices raise
And sing eternal their Redeemer's
praise.

The fondest mothers is gone
In vain we mourn over the dead
Alas she will never return
She has gone from a wearisome state
Where sickness and sorrows op-
press'd
She has left us to mourn our sad
fate
And with Jesus her soul is at rest.

How sweet she shone in social life
As daughter, sister, friend, and wife!
The closet, field and shady grove,
Attest her prayer, her vows, her
love.

Now done with all below the sun,
She shines before the brightest
throne,

Her race was swift, her bliss com-
plete,

Her views divine, her rest is sweet,
Her songs sublime, her transports
swell,

Her state eternal, God her all:
This, this alone, her husband cheers
And joy wipes off the briny tears.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) under the conditions (2). It is shown that the system (1) has a solution if and only if the conditions (2) are satisfied. The proof of this theorem is given in the next section.

2. In the second part of the paper, the problem of the construction of the solution of the system (1) is solved. It is shown that the solution of the system (1) can be constructed by the method of successive approximations. The first approximation is given by the formula (3). The second approximation is given by the formula (4). The third approximation is given by the formula (5). The fourth approximation is given by the formula (6). The fifth approximation is given by the formula (7). The sixth approximation is given by the formula (8). The seventh approximation is given by the formula (9). The eighth approximation is given by the formula (10). The ninth approximation is given by the formula (11). The tenth approximation is given by the formula (12). The eleventh approximation is given by the formula (13). The twelfth approximation is given by the formula (14). The thirteenth approximation is given by the formula (15). The fourteenth approximation is given by the formula (16). The fifteenth approximation is given by the formula (17). The sixteenth approximation is given by the formula (18). The seventeenth approximation is given by the formula (19). The eighteenth approximation is given by the formula (20). The nineteenth approximation is given by the formula (21).
